Objection onstantly and very properly made to the meddling of country legislators with our nunicipal affairs. Now, here is an opportunity for New York to legislate for it self in a strictly local matter.

It is entirely proper that where any evils exist or any corrupt methods prevail among officers or rooted. Dinner was waiting, but that made no difference to the household when there was a balloon mystery to solve, and with a shout all started in pursuit. The balloon in the mean time, was being wafted out towards Paterson, and at the same time was gradually descending. As it came nearer the ground more of Hoboken's inhabitants caught a glimpse of the unfortunate fellow hanging on for his life, and soon a thousand voices united in shouting words of sneouragement.

Some Truth in It.

To the Editor: I read the letter of "Johnnie Bull" in your laws of the 26th inst., and, while it is evident that it contained a lot of playful sarcasm, yet it is deplorable to think of the amount of truth there is in some of the writer's statements. Practice and Bellef the Test.

To the Editor Concerning the Lord's day of which "Grace" writes. It must be apparent to any one studying the subject that the church (which is the blessed company of all faithful people) has observed in all ages, ever since that first day of Pentecost gift of the Holy Ghost, the Lord's day, L. e., Re surrection Day, instead of the Sabbath. It is true our Blessed Lord observed the Sabbath and was obedient to the law in every particular, a he in his humanity was a Jew, but we, his fol have had a sure guide in all ages to lead us t all truth. So for years before the first word of day, and not the Sabbath, was observed by al Christians as the day for rest and worship. The practice and belief of the universal church in all ages are the only tests worthy of application any questioned article of faith. CHURCH,
